Creative notes

By reading we enrich the mind;
by writing we polish it.

Mentioning her

Some Qualities

1) She makes me the most happy.

2) She is the prettiest girl to me I don't think anyone can be that pretty. Whenever i see her face, my face just fills with happiness and I just feel the need to kiss her.

3.) She is the best ever sweet.
Her every single related thing
is lovely. I would just kiss her
till death.

4.) She also have the best ever
choices possible. Her food
choices, her dress choices, her
choices whenever she chose herself
first.

5.) Her voice feels like
music. It either calms
my soul or just make
it happy. Her voice is
as sweet as sweet

6.) Her body is as tender
as a feather and as
lovely as a clear
sky. To be honest,
if you say me to just
look at her body
for hours, i'd just
look and look without
doing anything, seeing
her beautiful figure,
her pretty pretty skin,
her prettiest of breasts, her
medium lengthed hair, her
"Forever" beautiful eyes.

7) Another thing about her is that She knows well how to handle situations and knows the most appropriate thing to say in times. She knows to make it better, i can surely say that.

8.) She have the ability that She can make anything more pleasant. Even when just her name is included, it's enough.

9.) Whenever she just start to tell anything, it just makes me so much attracted towards her.

10.) She is the purest girl i ever met. It don't mean she don't have negative points but i just can't see or idk.
I love her a damn lot.

11.) But , the most important thing to me is that she exists . Everything i mentioned above are not as worthy and important if compared to the fact that she exists . That's enough to relief my soul .

Well, she is almost perfect
but it's just she have some
things that pisses me off sometimes

She just sometimes hurt me
Saying bad about herself. It
feels like some kind of
bullying to me but a lot more
than just that. It just piss
me off to be honest. I never
mind if she would've said
something bad about me (which is
not possible) but she said it about
herself. But yeah that's not

enough to make me angry
from her. She just knows
always how to do it

better.

The Beginning

to Forever

If all began when i found her on telegram. Well, that time i had a group with my friends and my one friend added her and without even talking to her, i was just pulled towards her and i clicked on her id and just texted her. Some days we talked casually and i even said 'I love you' to

her but yeh she took it
as joke then so i just buried.
I don't know if i meant that
then or not. Actually after those
very few days, She deleted her
id, yes. And it didn't affect me
much that time but yeh it was
a little sad. I tried to find her
but i wasn't able to. But after
some days, out of nowhere, i
was just in some random
different group and saw her
id, i don't remember how i

Identified that it's hers but yeah
; texted her again and LUCKILY
She remembered me. Days and
days passed, she slowly and
slowly started to open up to me
and at a moment i realised
how messed up her situation
was. So, at that time my
plan was to just make her
life a little better and to
just leave when she won't
need me. You can say, like

a doctor. So i just started my tries to make her more happier and better person.

But while this process, i just didn't realise that slowly and slowly, i was falling and one day ; did accept this fact from my side but neglected to for it on her. So i just stood like, was a lie. Then one day, when venkie said something

like she was falling for me,
i was like what. Then the
whole night i just thought if
to ask her about it, tell
her about my feelings or not.

The next day, i did that.
Yes i confessed my love to
her and asked her out and
she FREAKING AGREED.

It was totally a dream to
me but i was loving it.

When we came into a relationship, in beginning it was as soft as it could be. We used to be a little distant but we were OK with it and... happy too.

When it all was in early stage, it was really like feeling the need of her attention, but slowly and slowly i opened up even more like risking the attachment And She always holded me in her arms.

If wasn't like she was just my lover, it was like she was my mate in every step i took. Slowly and slowly, it was like we are exploring life together in a way. We were then at a time where we accepted each other's complexities and the fact that there always be a region, we can never reach and embraced

the fact. Yes, we argued to
but it just was a way to
explore and made us closer
Everytime. Those were the times
, we said and explained our
love with numerous 'I love
You's but now it don't feel
needed. It feels like those
words are some things that
makes her happy so i do it.
Yeh it reminds her of my love.
but, it's not needed to b

Now, i feel a strange

connection with her.

A connection, which stays

, no matter where she

is. Now i don't see her flaws

or i should say i accept her flaws

and whatever is of her, is her

quality even flaws. I+ don't feel

at all like before. I wanted to

fix her in the beginning but

now, i just want her to grow

with me the way she is
and will be. I just want
her too to embrace herself
and her faults (if there).

Because she exist the
best way Possible.

Yeh idk how much i love
her but it's not less as
it's all i had and she's
happy with me.

Btw do you know that
i have a lot of faults

though and the major

She is jealous. Even
when i know she's mine,

when i know her. Still i

Sometimes feel very
jealous , there is no
reason to but i do. When
She gets to know about my
jealousy which happens

want to mostly. I feel like making more such contacts online with just be messy and waste my time. Better thing to do is that i should just talk with her instead in that time as with her, each moment feels so... precious.

She's so much to me
and my heart. She's
my companion. A person
who'll always stay as
close to me as myself.
I don't just hope that
we stay together forever.
I plan for it and i am
sure of it. I never had
been this sure my entire life.
Because to me It's pretty

Simple that we are together
, no matter how far we are.

And we are as good as
we could be and

not gonna lie, i'm

so grateful I found

her and through

her , found myself.

without a doubt,
we embrace each other's
everything and i personally
feel like giving all of me to
her.

We are satisfied,
We are happy.
Yeh...
